

GARAGE DOOR OPENER

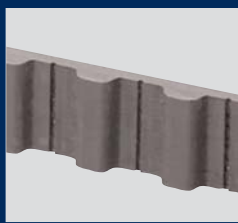

THE AVIATOR GARAGE DOOR OPENER FROM RAYNOR FOR QUIET TAKE-OFFS AND LANDINGS.

For piece and quiet and peace of mind, you need the new Aviator garage door opener from Raynor. It's powered by a 1/2 hp motor with a one piece solid belt drive rail, so it glides like a whisper. It comes complete with several safety features

designed to protect you and your family. And our lifetime motor warranty means you can count on safe, quiet comings and goings for as long as you own your home. For professional installation call your Raynor dealer today.

LIFETIME WARRANTY ON MOTOR & DRIVE BELT / 1-YEAR WARRANTY ON COMPONENTS 1/2 HP BELT DRIVE

The Aviator Belt
Created for maximum performance and smooth operation, the belt glides through the drive sprocket with no metal-to-metal contact.

Motor Vibration Isolation System
This breakthrough technology offers powerful, super-quiet operation that's trouble-free, year after year.

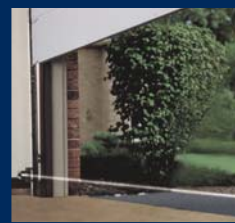

"Smart" Door Opener This exclusive feature lets you electronically program security codes from the control panel or the powerhead—easier and faster than ever before.

PosiLock™ Security System Once your garage door goes down, it's securely locked so an intruder cannot gain access.

Adjustable Light Delay Allows you to select from 1 1/2, 2 1/2, 3 1/2 and 4 1/2-minute light delay settings.

Protector System® Photo Eyes
Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Premium Multi-Function Control Panel Opens/closes door and turns garage door opener lights on/off from inside garage. Locks out radio signals while you're away. Includes an adjustable light timer and illuminated oversized push button.

Safety Signal™ Transmitter
Selects a new code from over 100 billion possibilities with every use. Makes it virtually impossible for burglars to capture your transmitter's code. Operates up to three garage doors

Optional SoftGlo™ Multi-Function Control Panel Even in a dark garage, it's easy to find your way to our smartly design SoftGlow™ lighted control. Turn opener lights on/off from inside garage. Locks out all remote control signals while you're away.

Optional Safety Signal™ Keyless Entry Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

Optional Premium Motion-Detecting Control Panel A "hands-free" motion detector turns your opener lights on when you enter the garage.

Optional Mini Safety Signal™ Remote Control
Convenient size to carry on key chain, in pocket or purse. Operates up to three garage doors and turns opener lights on and off.

The in-vehicle universal remote control. See your automobile dealer for availability.

Enhanced Range Feature allows you to open and close your garage door from greater distances.
