

NAVIGATOR™

GARAGE DOOR OPENER

2-YEAR WARRANTY ON MOTOR / 1-YEAR WARRANTY ON COMPONENTS

THE NAVIGATOR GARAGE DOOR OPENER FROM RAYNOR.

Convenience. Safety. Security. Value. You get it all with the Navigator garage door opener from Raynor. Featuring Safety Signal™ Rolling Code technology, as well as the PosiLock™ Security

System, Navigator protects you, your family, and your home. And with smooth, quiet operation provided by a 1/3 hp chain drive motor, you get maximum performance day-in and day-out.

2-YEAR WARRANTY ON MOTOR / 1-YEAR WARRANTY ON COMPONENTS 1/3 HP CHAIN DRIVE

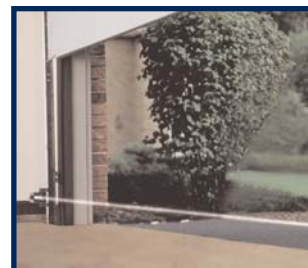

Lighting System provides illumination for dark garages. Lights turn off 4-1/2 minutes after the door is activated.

Lighted Door Control Button conveniently raises and lowers your door from the comfort of your garage.

Optional Wireless Keyless Entry opens garage doors from outside without transmitter or key. Simply program with your personal identification number.

Protector System™ Photo Eyes on both sides of the garage door transmit an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse its direction to "full open" position. If door is already open, garage lights activate when beam is broken.

Manual Disconnect Pull Cord allows the door to be operated by hand in case of power failure. The door automatically reconnects when the wall button or transmitter is used.

Hand-held Safety Signal™ Rolling Code Transmitters select a new code from over 100 billion possibilities each time you press the button. Makes it virtually impossible for burglars to capture your transmitter's code.

PosiLock™ Security System activates door to the closed position if an intruder tries to manually open your door.

Homelink Compatible for your in-vehicle universal remote control. See your automobile dealer for availability.
