

PILOT™

GARAGE DOOR OPENER

THE PILOT GARAGE DOOR OPENER FROM RAYNOR FOR A SMOOTH FLIGHT.

Dependability. Security. And smooth, reliable operation. You get it all with the Pilot garage door opener from Raynor. Powered by a 1/2 hp chain drive motor, it comes complete with several safety features designed to protect you, your

family and your home. And with our lifetime motor warranty, you are assured maximum performance day-in and day-out. For professional installation, call your Raynor Dealer today.

LIFETIME WARRANTY ON MOTOR / 1-YEAR WARRANTY ON COMPONENTS 1/2 HP CHAIN DRIVE

“Smart” Door Opener This exclusive feature lets you electronically program security codes from the control panel or the powerhead—easier and faster than ever before.

PosiLock™ Security System Once your garage door goes down, it's securely locked so an intruder cannot gain access.

Adjustable Light Delay Allows you to select from 1 1/2, 2 1/2, 3 1/2 and 4 1/2-minute light delay settings.

Protector System® Photo Eyes Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Manual Release Handle In a power failure, this feature releases the garage door for manual operation.

Premium Multi-Function Control Panel Opens/closes door and turns garage door opener lights on/off from inside garage. Locks out radio signals while you're away. Includes an adjustable light timer and illuminated oversized push button.

Safety Signal™ Transmitter Selects a new code from over 100 billion possibilities with every use. Makes it virtually impossible for burglars to capture your transmitter's code. Operates up to three garage doors.

Enhanced Range Feature Advanced electronics allow you to open and close your garage door from greater distances.

Optional SoftGlo™ Multi-Function Control Panel Even in a dark garage, it's easy to find your way to our smartly design SoftGlow™ lighted control. Turn opener lights on/off from inside garage. Locks out all remote control signals while you're away.

Optional Safety Signal™ Keyless Entry Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

Optional Premium Motion-Detecting Control Panel A “hands-free” motion detector turns your opener lights on when you enter the garage.

Optional Mini Safety Signal™ Remote Control Convenient size to carry on key chain, in pocket or purse. Operates up to three garage doors and turns opener lights on and off.

The in-vehicle universal remote control. See your automobile dealer for availability.
